

LISA BRANCH WATERSHED

LISA / MELROSE / GLENRIDGE / WESTWOOD DRAINAGE IMPROVEMENTS

PROJECT OVERVIEW

The six projects for this improvement are upgrades to these street crossings:

Brookwood at Masters	\$ 339,000
Sherwood near Westwood	\$ 214,000
Westwood near Sherwood	\$ 220,000
Glenridge	\$ 457,000
Melrose near Randol	\$ 250,000
Lisa near Randol	\$ 311,000

These projects will be implemented from downstream to upstream. The collective projects will further reduce the occurrence of flooding in the streets and yards in the area.

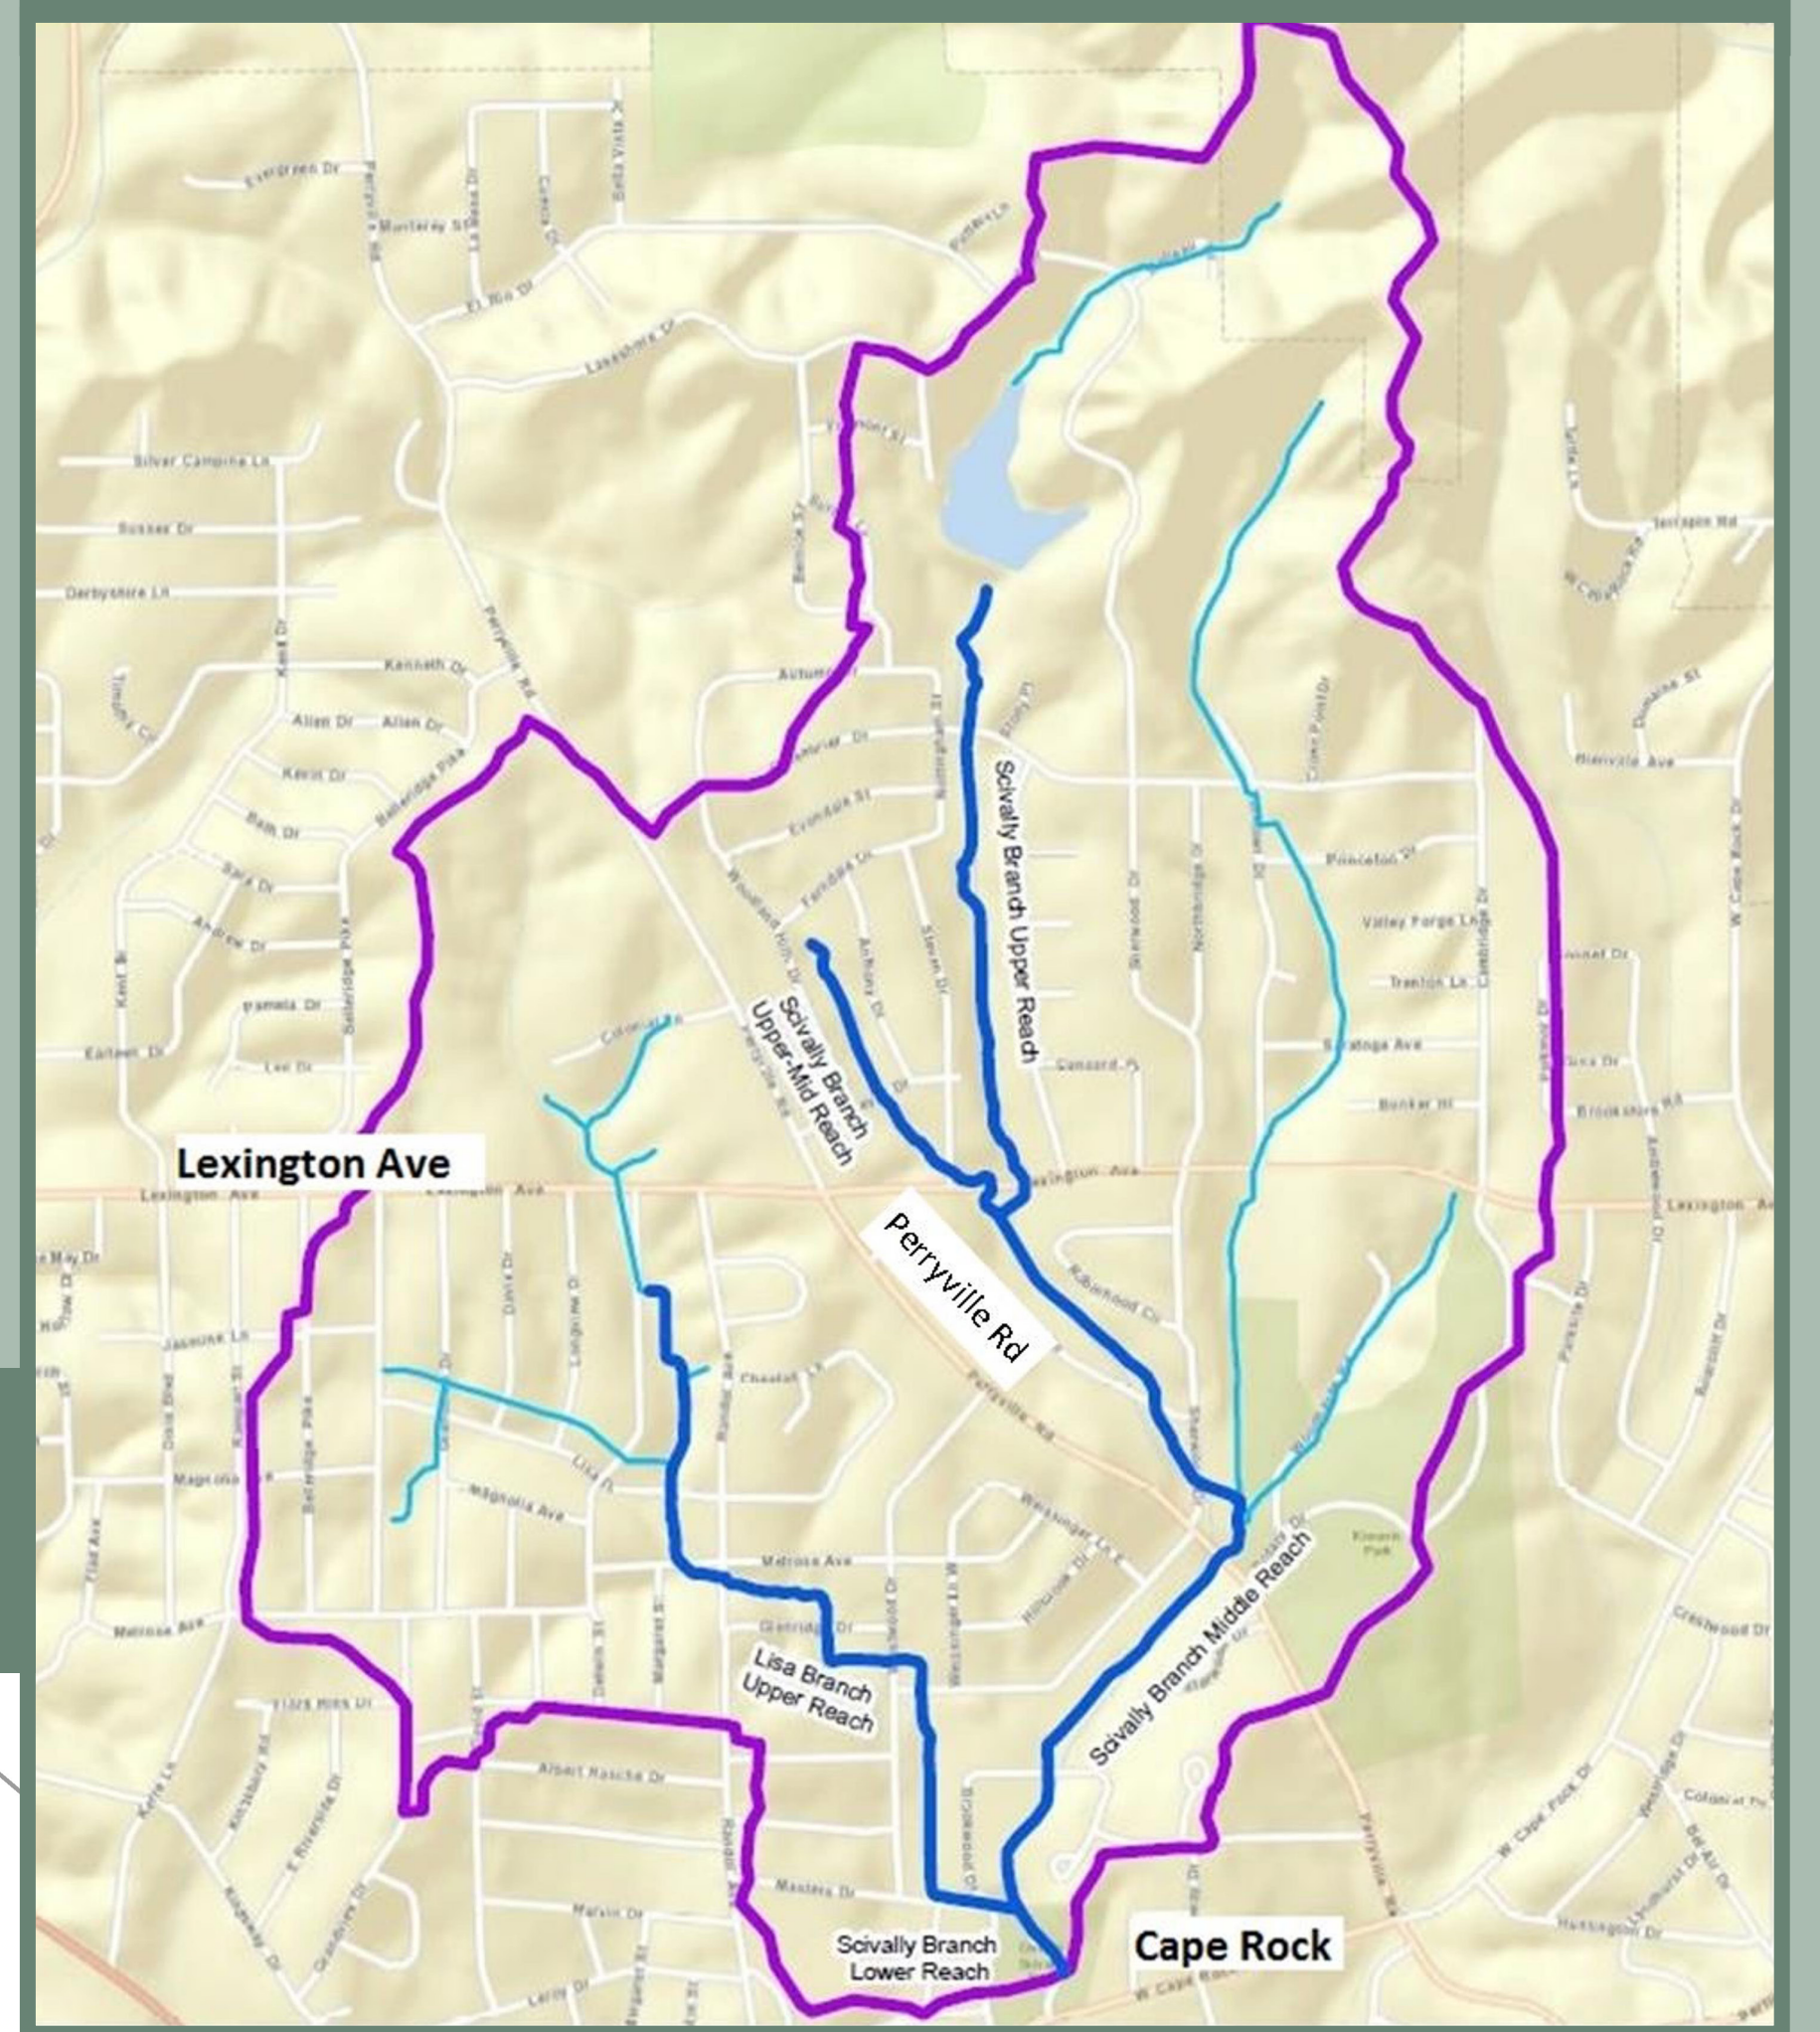

PROJECT SCOPE

The areas around the 2400-block of Melrose, Glenridge, Westwood, and Sherwood have experienced street and yard flooding for a number of years.

Earlier drainage improvement projects accomplished some reduction in the severity of the flooding, but there is still improvement to be made.
